DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-25 and 34-35, drawn to a method of preparing a semiconductor wafer, classified in class 438, subclass 455.
- II. Claims 26-33, drawn to a semiconductor wafer, classified in class 257, subclass 618+.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case unpatentability of the group II invention would not necessarily imply unpatentability of the group I invention, since the semiconductor wafer of the group II invention could be made by processes materially different than those of the group I invention, for example, rather than forming the second layer on the first layer and subsequently creating a region of weakness in the matching substrate and removing the first layer from the second layer, the second layer could be formed directly on the handle wafer.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Priority

Acknowledgment is made of applicant's claim for foreign priority based on an application filed in France on July 9, 2002. It is noted, however, that applicant has not filed a certified copy of the French application as required by 35 U.S.C. 119(b).

Drawings

The drawings filed on July 8, 2003, are acceptable.
